Coloured Irlen Glasses

Is reading difficult because you:

- Skip words or lines?
- Make mistakes with the little words?
- Lose your place?
- Don't understand it?
- Miss words?
- Get a headache or migraine?
- Letters and numbers play tricks?
- Your eyes water, itch or burn, or just feel uncomfortable?
- Do you get tired eyes from the computer?
- Reading becomes harder as you continue?
- Don't enjoy reading?

If you answer "yes" to three or more of these questions we can almost certainly help!
